 CENTRAL INTELLIGENCE AGENCY REPORT NO. [REDACTED]

INFORMATION REPORT

COUNTRY USSR (Ukraine) DATE DISTR. 31 Mar. 1950
 SUBJECT Azovstal Iron and Steel Plant in Zhdanov (Mariupol) NO. OF PAGES 1
 PLACE 25X1A
 ACQUIRED [REDACTED] NO. OF ENCLS. (LISTED BELOW)
 DATE OF INFO. [REDACTED] 25X1X SUPPLEMENT TO REPORT NO.

The following statements were made on the latest enlargements of the iron and steel plant in ZHDANOV (MARIUPOL), Ukrainian SSR:

The construction of an additional rolling mill was scheduled for 1949 and surveys were made. A German AEG type blast furnace was installed. A filter installation with pump station, canal, and connection tunnel was constructed for the water supply. All war damages were repaired.

25X1A Comment:

a. This report is forwarded as it contains late information on additional constructions in 1949.

b. It cannot be determined whether the constructions of the open-hearth plant and the alleged rolling mill are identical. It is also of importance to know whether the German blast furnace being installed is the fourth or an additional (fifth) blast furnace.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 10 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
